Please attach any supporting documentation for consideration. Submission should be in PDF Format.

Project/Item Description	New Turnout Gear to replace out dates set and a Turnout gear dryer
Clearly state the amount being requested. What is the total cost? How was the cost derived?	\$54,304.65
Which County ARPA Community-wide Benefit(s) does the project meet?	Public Safety
Briefly explain how the project meets the County's guidelines.	This will replace outdated PPE/turnout gear, and with the increasing need to wash the gear after more calls the dryer will cut down the time to dry the gear from a day to hours. This will keep more firefighters in service.
Why should this project be a priority and how will it help the County? Also, if this application is for more than one project, please identify each one, provide information and rank them in order of your priority.	This project would keep our volunteer firefighters in approved and in date PPE/turnout gear. Having the dryer would also keep more firefighters in service to respond to other calls faster then having to wait a day for there gear to dry without a dryer system.
Will this project require ongoing expense (maintenance, updates) or frequent replacement? Are expenses already being incurred, if so, can they be reduced through this project?	No
Project Timeline – start to finish, and when funding will be needed.	For the turnout gear 16 weeks from time of order to dilvery
Are other organizations part of this project? If yes, please list them and their role, including funding. If not, explain why.	No
